

Automatic cleaning machine VIBRATO.

MSA	Voltage	Size	Kg
19.705	230 V	480 x 480 x 860 mm	63.000

With its modern and secure design, the fully automatic cleaning machine VIBRATO has been developed for cleaning movement components and any other small watch parts.

- Certified ATEX according to the European directive 2014/34 UE (ATEX 2014) in IIB T4 class
- Ensures maximum safety and allows the use of watchmakers solvents such as rectified benzine
- Its conception with 6 baths (including 1 adjustable ultrasonic tank) + forced air heating system offers unrivalled flexibility and efficiency
- THE ONLY MACHINE enabling watchmakers to use it for washing, drying and epilame coating in 1 cycle.

The several possibilities of movements of the basket and the speed adjustment from 1 up to 1200 rpm guarantee maximum care and efficiency. The drying process is optimized to avoid residues of "dry drops". The machine is equipped with a 7" touch-screen display to manage all operations. Its intuitive and ergonomic presentation allows an easy-to-use interface by the operator. The wash programming, baths management and various configurations are made directly on the touch-screen. Ditto for the management of possible failures, which facilitates the after-sales service on-site by the user himself. A USB2 input allows implementing configurations and wash programs remotely. A rear exit is provided to connect the VIBRATO to an external exhaust or an active carbon filter. The machine is compatible with all existing baskets Ø 80 mm.

Approval institute	TÜV SÜD Schweiz AG
ATEX marking	Ex II 3/-G
IEC marking	EX h b IIB T4 Gc
Number of baths	6 (including 1 ultrasound)
Drying station	1 forced air station (adjustable up to 65° C)
Cleaning baskets	Ø 80 mm, up to 5 baskets height 10 mm
Cleaning actions	Rotation, oscillation, vertical agitation, ultrasound
Rotation speed	From 0 up to 1200 rpm / Adjustable acceleration
Vertical oscillation	Up to 10 mm, adjustable
Ultrasound	50 W adjustable from 10 to 100%, 40 KHz with "Sweep" function
Principle	Turntable with 7 positions
Interface	7" touch-screen display
Voltage	230 V or 115 V

Accessories :

MSA	Item
19.708	(1) Active carbon filter module
19.715	(2) Active carbon cartridge for MSA19.708
19.705-A	(3) Vapour collector, for connecting to an external aspiration
19.706	(4) Portable surveying instrument PPM atex certified, with charger 230 V
19.711	(5) Glass tank with cover, Ø 114 x height 175 mm

Active carbon filter module.

The VIBRATO machine must be connected to a valid external extraction system or to our activated carbon filter module to ensure a safe environment in terms of occupational health and fire protection.

At the same time, the working room must be regularly ventilated. In any case, we advise you to analyse the environment room by a local accredited specialist.

VIBRATO

MSA	Voltage	Size	Kg
19.708	230 V 30 W	720 x 260 x 260 mm	15.000

The module is fixed to the rear of the VIBRATO machine. It is equipped with an independent fan to ensure permanent operation. It allows the recovery of almost all the solvent vapours coming out of the machine and ensures a long-lasting use in complete safety.

The active carbon cartridge is easily replaceable (bayonet system). Its lifetime depends on the intensity of use of the machine.

Fan capacity : 235 m3/hour.

Spare part :

MSA	Item	Kg
19.715	Active carbon cartridge for MSA19.708	3.540

VOC sensor (PID).

MSA	Size	Kg
19.706	61 x 66 x 59 mm	0.111

Compact and accurate PID sensor to monitor and optimise cartridge lifetime by simple reading.

It is estimated that under heavy use, the cartridge has a lifetime of 4-6 months.

Sensitivity	0.001 ppm
PID lamp	10.6 eV
Range	0.001 - 5000 ppm
Alarm	Yes
Output	USB 2.0

Vapour collector, for connecting to an external aspiration.

MSA
19.705-A

The collector is attached to the rear of the machine and must be connected to an external suction device (Ø 100 mm sleeve).

Baskets for cleaning machine, in polished stainless steel 304.

Ultrasonic cleaning apparatus PRESET.

- Programmable ultrasonic generator : possibility to save a wash program
- DEGAS function : the special deformation of the ultrasonic wave accelerates the degassing of the liquid
- BOOST function : this mode is used to temporarily increase the ultrasound power in case of persistent contaminants
- SWEEP function : the frequency scanning is automatically switched for a better distribution of the ultrasonic power
- The heating temperature is adjustable in 5° C increments up to 80° C
- The ultrasound duration from 1-5 minutes in 1-minute increments or 5-30 minutes in 5-minute increments.

Stainless steel tank. Delivered without lid or basket.

Professional steam cleaner XRVP PRO.

- (1) : using the 5-litre water supply tank provided.**
- (2) : via a direct connection to the public water mains supply.**
- In both cases, the hot filling is possible.**

MSA		Voltage	Size	Kg
19.712	(1)	230 V 50 Hz	322 x 365 x 330 mm	9.000
19.713	(2)	230 V 50 Hz	322 x 365 x 330 mm	9.000

Professional steam cleaner PXRVP PRO.

It is recommended for use in watchmaking, jewellery and related industries for the cleaning all types of parts. Polishing residues, resin, oil, etc., are easily eliminated and without any toxic products thanks to the adjustable steam jet from 0 to 10 bar.

The device has an integrated anti-limestone system, which allows the steam to be tolerated by the treatment plants of the public water supply.

The steam production is constant with a very low-pressure drop even in a continuous service. The device also allows generating wet or dry steam (by selection).

Delivered with 1 flexible handpiece with nozzle (1.3 metres) and 3 pre-drilled nozzles.

Note: when ordering, remember to define the filling mode of the device. Delivered without pedal.

Option :

ELMADRY TD drying unit is available in 3 sizes (30, 120 and 300) and designed for use in production, workshop and service. After ultrasonic cleaning, the parts are first rinsed in the basket with running water and then simply placed in the drying unit. Fitted with cold and hot air blower (70° C), sensitive parts can also be dried gently. In cold air operation, the parts to be dried can also be cooled quickly.

The hot air function is activated while the cover is on. The cover has ventilation slots, ensuring that maximum air turbulence is produced, and the moist air is conducted to the outside. At the same time, the cover reduces energy consumption. The dust filter on the underside is replaceable and prevents re-soiling of the cleaned parts by the dust in the room air.

Optional :

MSA	Item
19.611-A	(1) Perforated silicone mat for MSA19.617
19.611-B	Perforated silicone mat for MSA19.618 and MSA19.619
19.626	Dust filter for MSA19.617, MSA19.618 et MSA19.619

Optional baskets available :

- For MSA19.617 (TD 30): MSA19.660-B (1 litre) and MSA19.662-B (3 litres)
- For MSA19.618 (TD 120): MSA19.664-B (6 litres) and MSA19.665-B (12 litres)
- For MSA19.619 (TD 300): MSA19.666-B (30 litres).
